An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- 1) In the specification, page 1, before the 1<sup>st</sup> line, following is inserted:  
- - This application is a 371 of PCT/JP04/19770, filed 12/24/2004. - -

The following is an examiner's statement of reasons for allowance: The closest prior art is US 6,747,047, which teach structurally similar compounds as claimed in herein. However, the reference compounds are ortho positional compounds as compared to the meta positional compound, and also, in the instant claimed compound the Q2 is phenyl ring always substituted with C1-4 haloalkoxy group. Applicants have submitted declaration showing unexpected results. Inasmuch as the compounds are allowable, rejoinder of withdrawn claims 12-13, drawn to the method of use are rejoined. Claims 1-4, 6, 15 and 17-18 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 12-13 are directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, claims 12-13 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the**

Art Unit: 1621

**Office action mailed on 9/7/10 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
